

[Addendum: December 20, 2024](#)

The A250 Collective eagerly anticipates your creative and thoughtful ideas. As our partnership has grown, we have expanded the overarching theme of the 4th of July Spectacular on Penn Avenue to be broader and more inclusive by also highlighting the unique identities of America's states and territories. While the primary goal of this event remains to create a vibrant, engaging, and memorable celebration of our nation's independence and its 250th anniversary, we encourage producers to incorporate creative elements that seamlessly showcase the individual states and territories. These additions should enhance the overall theme and purpose of the event without detracting from its main objectives.

We value your time and effort and look forward to reviewing your innovative submissions that reflect this vision and elevate the event experience for all attendees.
